

# Decorative Solutions for All Your Asphalt and Concrete Hardscapes

TrafficScapes™ is an Ennis-Flint manufactured portfolio of preformed thermoplastic materials for Decorative Pavement Marking Solutions that are ideal for Municipal Streetscapes and Commercial Parking Lots. They are designed for durability, safety, and aesthetics. TrafficScapes products can improve safety and visibility as well as add complementary accents to your overall streetscape or parking lot design while incorporating regulatory requirements. No worries—you're not forced to sacrifice aesthetic appeal for safety adherence—TrafficScapes™ products provide both!

## Inlaid Decorative Surfacing System for Asphalt

DuraTherm® is a specially-designed preformed thermoplastic material that is inlaid into imprinted asphalt using StreetHeat® asphalt reheating technology.

## Branding, Public Art and Custom Horizontal Surface Wayfinding Signage

Ideal for custom branded parking lot wayfinding, community branding or any other horizontal custom graphic you required. DecoMark® is surface applied and does not alter or impair the substrate. Application does not require expensive capital equipment, customized tools, templates, or grids.
